Welcome to the fifth issue of the Lee Quo Wei Law Library Newsletter. We aim to inform teaching and research staff of developments at the Law Library and new resources and websites that the Library has either subscribed to or added to the various Selected Internet Resources pages that we maintain on the Law Library webpage.

Wolters Kluwer / CCH PrimeLaw

The Law Library has recently subscribed to Wolters Kluwer / CCH PrimeLaw, a legal database combining legislation, case law, commentary and journal searching. PrimeLaw includes 60 ebook titles, more than 9,500 reported cases (Hong Kong and UK) and consists of the most comprehensive Hong Kong company law cases. [PrimeLaw database guide](#) has been created to help our users to navigate the database.

CUHK users can access PrimeLaw through [A-Z Databases list by Law](#)

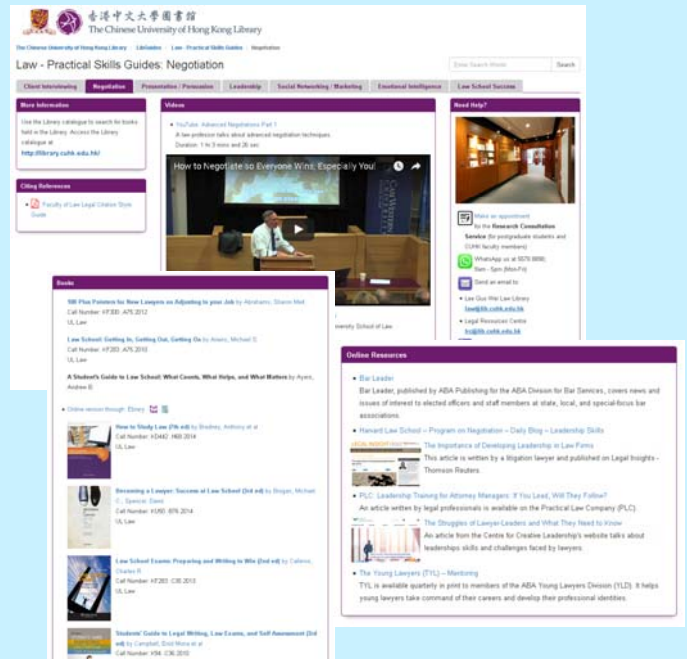

Practical Skills Guide

To provide our law students with self-help resources for developing lawyering skills, the Law Library has created a [Practical Skills Guide](#) on [Law Library Guides section](#) of [the Lee Quo Wei Law Library's webpage](#).

The Guide is divided into six skills that are important in the practice of law: Client interviewing, negotiation, Presentation / Persuasion, Leadership, Social Networking / Marketing, and Emotional Intelligence, and a section focusing on law school success. Students can find a wide variety of resources including popular monographs, ebooks, free online videos, and websites that are written / produced by trusted law-related organizations, law professors or attorneys in practice.
